

The background is a close-up, low-angle shot of a vehicle's front suspension and tire. The tire tread is prominent on the left, showing a series of parallel grooves. The suspension components, including the control arm and ball joint, are visible on the right. The entire image is overlaid with a semi-transparent blue filter.

ASSEMBLY ORDERING

STARTING IN 2020, YOU CAN SHOP OUR TIRES AND WHEELS BY THE ASSEMBLY INSTEAD OF PACKAGE. FOLLOW OUR STEP-BY-STEP GUIDE ON HOW TO SELECT AND ORDER YOUR E-Z-GO TIRES AND WHEELS FROM OUR CATALOG.

1. CHOOSE YOUR WHEEL

2. CHOOSE YOUR TIRE FROM THE PROVIDED OFFERINGS.

3. DETERMINE IF YOUR SELECTION IS NON-DIRECTIONAL OR DIRECTIONAL FROM ASM IN CHART.

A. NON-DIRECTIONAL MUST PURCHASE (4) ASM

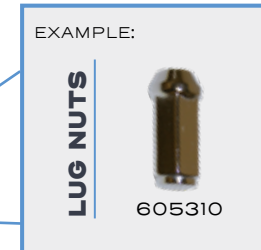

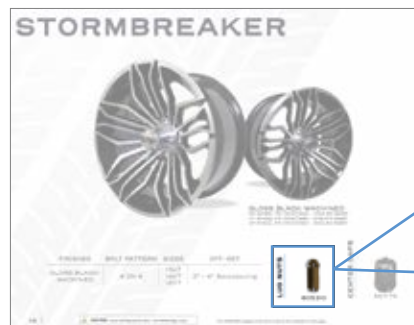

15" GLOSS BLACK MACHINED
195/50-R15
ASM: 10007365 MSRP: \$343.67

B. DIRECTIONAL MUST PURCHASE (2) LH ASM & (2) RH ASM

EXAMPLE:
14" GLOSS BLACK MACHINED
23X10-14
ASM: 10007369G01 (LH) 10007369G02 (RH)
MSRP: \$285.00

SEE PAGE 20-21 FOR MORE INFORMATION ON NON-DIRECTIONAL AND DIRECTIONAL TIRES.

4. ORDER (16) LUG NUTS. CENTER CAPS ARE INLCUDED.

HOW TO READ YOUR TIRE

ALPHA NUMERIC **A** 205 / **B** 65 - **C** 10

A TIRE WIDTH (205)

Width of the tire measured in mm from sidewall to sidewall.

B ASPECT RATIO (65)

Ratio of the height of the tire's side to its width.

C WHEEL DIAMETER (10)

Distance between the vertical portion of the rim flange.

P-METRIC **A** 21 x **B** 10.5 - **C** 12

A OVERALL TIRE HEIGHT (21)

Overall Tire Height is always the first number and is tire height when inflated.

B TIRE WIDTH (10.5)

Distance between the widest part of the tire when inflated and not under any weight.

C RIM DIAMETER (12)

Distance between the vertical portion of the rim flange.

TIRE BUYER TERMS

Here are some common terms that will help with your tire buying decision.

TREAD DEPTH

The measurement of the bottom of the deepest groove to the top of the tire tread refers to tread depth.

OFF-ROAD TIRES:

- Thicker tread
- Added traction

ON THE COURSE TIRES:

- Low-impact treads
- No grass damage

PROFILE

The profile of a tire is the measurement of the tire's section height.

LOW-PROFILE TIRES:

- Better handling at higher speeds
- More traction for better control

HIGH PROFILE TIRES:

- Better stopping power
- More space between golf car and the road

PLY

The tire ply refers to the thickness of the rubber and also shows the weight that can be carried by your tire.

USE OUR 4 PLY TIRES FOR:

- Utility Work
- Neighborhood drives
- Off-roading
- Golfing

CHOOSING

**Better Performance.
Better Handling.
No Matter the
Weather Conditions.**

DIRECTIONAL

E-Z-GO Directional Tires, such as the Backlash tire, are designed with lateral grooves that create tires with a v-shaped tread pattern. This construction leads to better handling while driving especially through wet conditions.

YOUR TIRE

Knowing if your tire is directional or non-directional will affect the way that your tire is mounted on your golf car.

**Quieter Drive.
Symmetrical tread.
Longer lasting.
Easy mounting.**

NON-DIRECTIONAL

E-Z-GO non-directional tires can be mounted and rotated amongst all four sides of the vehicle. With the ease of rotation, E-Z-GO non-directional tires are known to outlast other tire tread options.

RADIAL TIRES vs BIAS PLY TIRES

Radial and Bias tires refer to the method of which your tire was constructed. Both radial tires and bias tires are offered by E-Z-GO.

- LESS VIBRATION • GENERATES LESS HEAT
- FLEXIBILITY • GREAT RESPONSE TO IMPACTS

RADIAL

A radial tire will give you a smooth ride not effected by any obstacles on the road. The composition of the radial tires leads to a more flexible, strong tire that absorbs shocks, bumps and impacts as you drive.

- GREAT CUT/PUNCTURE RESISTANCE • THICKER SIDEWALLS
- RIDE STABILITY • LESS EXPENSIVE

BIAS

Bias tires are known for their ability to achieve a superior ride comfort while still tackling the rough paths that your golf car might take. The construction of this tire leads to thicker sidewalls that add less cut resistance to your tire while offering better ride stability.
